OUR DRIVING IDEA:

HELP 8000 CUSTOMERS TO FIND THEIR PERFECT SOLUTION.

WELCOME TO GLOBAL ARCHITIZER GROUP

We believe that every Indian family should own their ideal home. Our objective is to establish Global Architizer Group as a nationally and internationally recognized brand, making construction a hassle-free and enjoyable experience.

For over 14 years, our company has achieved significant success in the construction, interior, and exterior industries in India. We have completed more than 300 unique, high-quality, and prestigious projects across the country.

We have a proven track record of delivering demanding projects on time and within budget due to our extensive experience, highly qualified team of engineers, architects, and designers, and modern equipment, among other factors.

We are at the helm of supremacy in construction, drawings, and execution.

COMMERCIAL *Projects*

A wide-angle photograph of a modern office interior. The space is filled with rows of light-colored wooden desks and black office chairs. Many desks have computer monitors and some have backpacks on them. The floor is covered in a blue and grey patterned carpet. The ceiling features exposed ductwork and long, black, rectangular light fixtures. In the background, several people are visible, some standing and talking. The walls are decorated with clusters of blue and orange balloons. On the right side, there are wooden cubicles with glass partitions. The overall atmosphere is bright and professional.

LANDSCAPING

SOME BRANDS WE'VE WORKED WITH

UPVC & HIGH PROFILE ALUMINIUM DOORS & WINDOWS

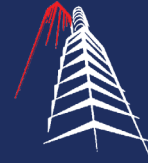

UPVC is also known as unplasticized polyvinyl chloride,. In current practices UPVC is a fast transforming, widely preferred material by builders to make not only window but also doors. It's not only enhance the beauty of the property but also adds to multiple benefits like energy efficient, sound proof, durable, fire retardant, long life & maintenance free.

Windows and doors are amongst the most frequently stressed components of a house. ... Aluminium is proven to be more weather-resistant than plastic and it permits very slender and beautiful structures in any colour.
